Re: North Pleasant Street, Eastman Lane and Governor's Drive intersection

At its May 18, 2009 meeting the Public Transportation and Bicycle Committee voted unanimously to recommend the roundabout plan option for North Pleasant Street, Eastman Lane and Governor's Drive intersection with the following modifications to the plan:

- Termination of bike lanes well before the roundabout at the exit ramps to the sidewalks.
- "Sharrow" images in the vehicular traffic lanes at the same spot inviting more confident riders to merge with traffic.
- Clear signage indicating that bicyclists should either exit onto the sidewalk or merge into the vehicular travel lanes.
